2. Track capacity at Frankfurt/Oder is to be increased. For 1954-1955, track capacity between the Oder Bridge and Frankfurt/Oder passenger station is to be increased (shunting track). A first sum of 260,000 DME has been allocated for this project.
3. The Ministry of Railroads Investments Department has been allotted a sum of 2,600,000 DME to cover the cost of the work of continuing the S-Bahn track from Strausberg to Strausberg-Stadt.
4. Starting on 15 March 1954, a conference took place in Moscow between officials of the Ministry of Railroads, led by Deputy Minister Erwin Kramer, and Soviet officials. The purpose of the conference was to regulate transit traffic through Poland and the accounting of costs of transportation through Poland now that reparations traffic has ceased. It is also proposed that all export traffic from Frankfurt/Oder to the USSR via Poland be forwarded by the Polish railways, thus eliminating the German brigade teams, who at present man the trains.
